PROFILE

Junior Fullstack Developer with hands-on experience building real-world web applications using Next.js, TypeScript, Node.js and MongoDB. Focused on clean UI, practical backend functionality and reliable user-oriented solutions.

TECHNICAL SKILLS

Frontend	React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML, CSS
Backend	Node.js, Express, REST APIs, Authentication, Authorization
Databases	MongoDB, SQL
Tools	Git, GitHub, VS Code

EXPERIENCE

Fullstack Developer - Freelance Jan 2025 - May 2025

Customer Notification & SMS Automation Platform

- Developed a fullstack web application for a plumbing business to automate customer follow-ups through scheduled SMS reminders and promotional discount links.
- Built secure authentication with role-based access for Admin and Worker users.
- Implemented a customer dashboard for 100+ records with search, pagination and full CRUD functionality.
- Created admin tools for SMS templates, profile management and delivery/error logs.

Technologies: Next.js, TypeScript, Tailwind CSS, MongoDB, Twilio API

Fullstack Developer - Omega Systems Internship Jul 2024 - Sep 2024

- Maintained and updated client websites using PHP, WordPress, HTML, CSS and JavaScript.
- Resolved bugs, improved layout consistency and supported cross-browser compatibility fixes.
- Collaborated with team members using Git-based workflows.

PROJECTS

CGC - Game & Movie Rating Platform University Thesis

- Co-developed a fullstack platform where users can browse, review and rate movies and games.
- Built the movie section with trending movies, search/filtering, movie details and TMDB API integration.
- Implemented similar-movie recommendations and authenticated user ratings.
- Contributed to database schema, authentication flow, signup/login and email verification via OTP.

Technologies: Next.js, TypeScript, Tailwind CSS, MongoDB, TMDB API

EDUCATION

University of Western Macedonia - Kastoria, Greece 2020 - 2024

Bachelor's Degree in Computer Science
GPA: 7.84/10

ADDITIONAL INFORMATION

Military Service: Completed **Activity:** IEEEExtreme programming competition participant
